

Join the European Peace Action in Sweden!

You are invited to join a peace forum in Malmö, Sweden during the European Social Forum, 17-21 September 2008.

Peace activists from all over Europe will come together for European Peace Action, four days of seminars, workshops and actions with the aim of strengthening the cooperation between radical peace groups across Europe.

We hope to create an international network of peace groups to more efficiently share information and coordinate campaigns.

The five main themes for European Peace Action will be NATO and the militarisation of the EU, the Globalisation of Militarism, Nuclear Weapons, the Militarisation of Space and Co-ordinating Our Resistance.

We want to share knowledge on militarisation and inspire and encourage people to actively take part in direct peace actions.

For more information about the forum, to sign up for our newsletter, see the programme or to get in touch:
